Item 3: Disciplinary Information

There are no legal or disciplinary events that are material to a client's or prospective client's evaluation of John Robert Mulligan.

Item 4: Other Business Activities

John Robert Mulligan is a licensed insurance agent of JN Financial, LLC, an affiliate of JB Capital LLC where he may recommend insurance and annuity products through various insurance companies to clients. When such recommendations or sales are made, a conflict of interest exists as Mr. Mulligan may earn insurance commissions for the sale of those products, which may create an incentive to recommend such products. Mr. Mulligan is subject to the Advisor's Code of Ethics, which compels him to always act in the best interest of the client.

Item 5: Additional Compensation

In addition to the description of additional compensation provided in Item 4, John Robert Mulligan may receive additional benefits. From time to time the Advisor may provide nominal incentives to its Investment Advisor Representatives for achieving the Advisor's business goals. These incentives may include gift cards and donations to a charity of their choice.

Certain product sponsors or insurance marketing organizations do and may in the future provide John Robert Mulligan with additional economic benefits because of his recommendation or sale of certain insurance products. The economic benefits received by John Robert Mulligan from product sponsors or insurance marketing organizations can include but are not limited to, the sponsorship of conferences and educational sessions, marketing support, incentive awards, payment of travel expenses, and tools to assist John Robert Mulligan in providing various services to clients.

In connection with Alera Group, Inc.'s purchase of Johnson Brunetti, Alera agreed to make certain post-closing payments to the sellers based on performance of JB Capital, LLC and JN Financial LLC for a three-year period beginning February 1, 2023, a portion of which will likely be shared with insurance agents. This creates an economic incentive to recommend insurance products, which typically yield commissions and other compensation discussed above at the time of purchase that is likely greater than would be earned through advisory fees if the premium was instead invested in an advisory account over the three-year period. This represents a conflict of interest.
